**October 2013 Status Report**

Archiving/History Committee

We have completed going through the boxes of materials still in District 12 possession and information given to us by recent past governors. The first forty plus years have been given to a repository. We have one box of pictures and newspaper articles that need to be identified and put into albums and then saved to a hard drive. We also have saved paper reports, etc. that need to be scanned to discs and stored for a pre determined time. We have separated into a container all District Directories and District Conference Agendas still in our possession.

We have finished as much of the History of District 12 as we can without input from individual clubs. Hopefully we will be able to add the required club information and be able to complete with a minimum of effort and fine tuning.
