## Leadership Development

Merry Christmas and Happy New Year!

Wow, time flies in our lives, and also in Zonta! It does not seem it was just 2 months ago we were at the Governor's Conference learning how to be "BOLD". Many Zonta activities have transpired over the last 2 months, due to all of the new and experienced leaders we have in our clubs.

There are many very useful tools and new information on the Zonta International website at [zonta.org](http://zonta.org). If you have not ever logged onto the Zonta International website, you need to initially log on and set your password. Then you are ready to go. When you open the International website there is a line of 7 dropdown menus across the top where you can click for the appropriate information, from "Our Causes" to "My Zonta". Under the My Zonta tab you will find a dropdown entitled "Leadership Access" which provides information for specific international, district, and club officers, directors, and committee chairs only. **Do not use this dropdown tab.**

At the Governor's Conference, our past Governor, Bridget Masters, lead a "Bold Circle" on

Leadership, and I was there to support her presentation. Bridget showed us on her computer International's resources for leadership. Established during the 2014-2016 Biennium, the Zonta Leadership Program is designed to provide Zonta members with organizational knowledge, personal and professional development and opportunities to expand their leadership. That information is found under the third drop-down information topic found under "Tools". Click on the word Tools and in this section of information topics choose Leadership Development Tools for access to a variety of topics on Leadership Development Resources.

These are the information tabs to explore for a deeper understanding of Zonta leadership:

## Zonta International Leadership Resources

Zonta International is committed to the ongoing growth and development of its members through knowledge and competencies and to supporting the effectiveness and efficiency of Zonta leaders at all levels of the organization.

I would suggest you start with the Core Competency Development Program, which looks like this on the Zonta International website:

### Core Competency Development Program

The core competency development program is the framework for all Zonta Leadership Program e-learning sessions. Zonta gives members the opportunity to continue to grow as leaders by developing a set of knowledge and skills that help them be effective in many Zonta roles: we call these core competencies.

- Core Competencies Development Plan | [PPT](#)

This is a great start for now, between Christmas and the New Year. If you miss doing this, make a New Years Resolution to step by step continue on with the topics:
